(“Copper” or the “Company”) which were prepared in accordance with International Financial Reporting Standards.

This management discussion and analysis may contain forward-looking information (as such term is defined under applicable securities laws) in respect of various matters including upcoming events. DESCRIPTION OF BUSINESS

Copper Ridge Exploration Inc. (the “Company”) was formed on May 26, 2021 under the laws of British Columbia. The address of the Company’s corporate office and its principal place of business is 200 - 551 Howe Street, Vancouver, British Columbia, Canada.

The Company’s principal business activities include the acquisition and exploration of mineral property assets. As at January 31, 2022, the Company holds an interest in an early stage mineral exploration property and the Company had not yet determined whether the Company’s mineral property asset contains a deposit of minerals that is economically recoverable. The recoverability of amount shown for exploration and evaluation asset is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company’s ability to continue as a going concern.

The Company had a deficit of \$132,727 as at January 31, 2022, which has been funded by the issuance of equity. The Company’s ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. The impact on the Company is not currently determinable but management continues to monitor the situation.
